UTAH.

SILVER AND GOLD, 16 to 1.

Gold is King and Silver is Queen, and must go hand in hand, as it were, in order to have our circulating Medium complete, with silver at the ratio of 16 to 1, thereby saving the Government the extra expense of calling in all the Silver coin now in circulation and having it re-coined to some other standard.

is complete, as God dehim to be, who is without a in the beginning God Let us make man in our imafter our likeness * * * So God created man in his own image, in the image of God created he him; male and female created he them." So with the King Gold and the Queen Silver, they must both go together; and when the fathers of our country framed the Constitution, giving Congress the right "To coin money," we believe they intended that gold and silver, mainly, should constitute that "money," and we also consider that it should still constitute that "money," and neither one should be ostracized and sacraficed to the interest of the other, but let the King Gold and the Queen Silver have their proper place side by side, each having a specific value that connot be jeopardized by the fat money lenders who are always trying to "wall street" everybody with whom they have anything to do.

The country is now groaning under the burden that has been thrown on it through the demonetization of silver, and business of all kinds are considerably stagnated and will never return to their normal condition until the Queen Silver, has been again placed beside her husband King Gold where she rightfully belongs.

So we say, give us Silver as a circulating medium, putting it on a par with gold, with its intrinsic value at a ratio of 16 to 1.

MAKE HOME BEAUTIFUL.

We are a lover of beautiful flowers, trees and shrubbery, and in order to induce more interest in their favor, we make some comparisons in the shape of a few cuts this week, portraying the difference around dwellings, &c., that

adorned with the beauties of nature.

In the first place we have a building, number 1, that has never had any pains taken with it, to place flowers, plants, &c., around it to make it attractive. How bare and forsaken it looks!

No. 1.

How much more attractive this building (No. 2,) appears with its nice lawns, a neat flower bed in front and otherwise adorned with running vines around the building.

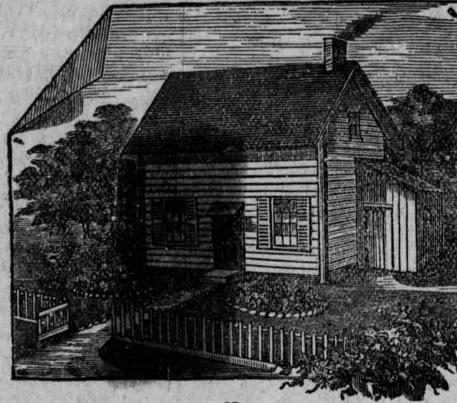

Ne. 2.

Again in cut number 3, we have a building that is partially ornamented, but not as much so as it might be. This house and its surroundings bespeak the thrift of its occupants. They being a free and easy sort of people, are content with a small amount of nature's beauties.

the paper. It is very probable because of his emissaries. that they are fully as important as souls of gossips are bitter with the others whose names frequently wormwood of their own though adorn the local columns and still and they who listen unresisting the editor can not be blamed. | to the gibberish of their filthy Small papers with small patronage aginations are rotted in turn can not afford to employ large the intercourse. Gossips are con staffs at large salaries. It is the ards; they dare not say to his far peoples duty to assist the home what they repeat behind their vi paper by dropping news items in tim's back. Therefore beware the box or telling the editor who him or her who smiles in your pro is sick, married, dead or come to sence and scowls in your absence town. Editors, as well as common Rather make open enemies the mortals, have their trials in life as ostensible friends. Gossip is seen in the following blank traitors, ever ready to betray h verse composed by a brother in who has most befriended then misfortune:

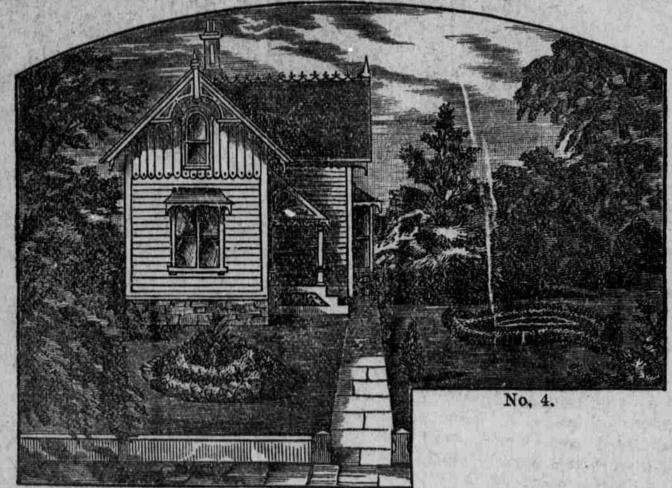

Gossips are lecherous, ever ale

No.

In running a paper, you've no- to coin the tradition of a p ticed, no doubt, how some weeks it woman's disgrace or to circular humps you to get the thing out. abominable lies concerning You hustle for copy and rack your right men; and he or she poor brain, fresh morsels of news gives rise to such falsehoods is for your columns to gain; but it's more to be despised than him all to no purpose, the news isn't her who spreads them broads there, no matter how wildly you to an eager multitude of their rustle and swear. So you trump up who roll lewd fictions as sw

morsels under their dirty tongo Cossips are liars and the truth not in them, for trath can not

In cuts 4 and 5 we see both the buildings and surroundings highly ornamented and made attractive. How much more pleasant it is to have a home beautified, as these are, than to have it like cut 1, or even 3. All the extra expense required to tastefully adorn the home is fully repaid in the enjoyment of the occupants! Children will love to stay at home to enjoy the sweet perfume of the flowers and gaze upon the beautiful foliage! When God has given us the facilities it is our duty to make good use of them and make our homes attractive.

NAMES IN NEWSPAPERS.

Often the country editor hears complaints from people whose are left bare and those that are names are seldom mentioned in

some stuff just to plug up the space. tell how bicycle riding is death to the race, how the dads of the city aren't on to their jobs, and how Wilkinson's heifer got chocked with a cob. Then you clip till the blamed thing won't hold any more, and the very next mail brings you copy galore.—Ex.

Gossips.

If an honest man is the noblest work of God then a gossip is the meanest work of Satan. Gossips ne er do good and never fail to do ar . They are no earthly use to vers, preachers, editors, detecor even to Old Nick himself c. all men, recognizing the fact that gossips are born of hell, become disgusted with the Devil

"Her grace of motion, and of look, the st The swimming majesty of step and trea The Symmetry of form and feature, set The soul affoat, even like delicious airs Of flute and harp."

For her matchless look of grace and m this regal beauty was indebted to p health, restored by the use of that uned invigorating tonic and nervine, Dr. P. Favorite Prescription, which set in action every function and gave purity richness to the blood.

"Favorite Prescription" is a positive for the most complicated and obstinate of leucorrhes, excessive flowing painting
